TEACHING EXPERIENCE AND RESPONSIBILITIES

Course/Clerkship/Residency or Fellowship/CME Directorships:

- Associate Program Director 2012-present
Internal Medicine Residency Program
LSU Department of Medicine
Baton Rouge, Louisiana

Assist the Program Director (P.D.) in all activities pertaining to the successful accreditation and daily operations of the Internal Medicine Residency Program. Duties include the following:

- *Participating on the Program Evaluation Committee, which includes a yearly daylong retreat (requiring weeks of preparation) to discuss educational content, administrative processes, and program goals for each new academic year;*
- *Assisting in the annual revision of the program’s Policy and Procedure Manual;*
- *Assisting in the annual revision of all educational-rotation goals and objectives;*
- *Actively participating in the annual recruitment cycle for new residents, including reviewing applicants (approximately 400 applications), selecting and organizing list of applicants invited to interview, sending online-interview invitations, conducting in-person interviews (approximately 100 applicants for 25-minute interviews), participating in Selection Committee meetings to discuss applicants and build rank list (weekly, 3-4 hour meetings held for approximately 8 sessions), entering electronic rank list, and analyzing results;*
- *Assisting P.D. with administrative tasks related to day-to-day operations, including schedules, disciplinary matters, process changes;*
- *Assisting with Annual Program Review documents, which involves the compilation and analysis of performance data, electronic data entry, and completion of official reporting to the IM Residency Review Committee for program accreditation;*

- *Assisting P.D. and program coordinator with the on-boarding of new residents and completing exit administrative work for graduating residents.*

The estimated workload is set by the accrediting body to approximate 15% effort of full-time FTE. (increased to estimated 25% in 2022)

Curriculum Development/Implementation:

- Contributor, Curriculum Redesign 2003
Internal Medicine Residency Program
LSU Department of Medicine
Baton Rouge, Louisiana

Co-developed new inpatient-ward team/clinic/ICU rotation system for implementation of new RRC Duty Hours guidelines.

- Project Participant 2004
PACE-HOPE Program
LSU School of Medicine
New Orleans, Louisiana

Brief involvement with working group to develop new clinical evaluation tool for Medicine clerkship for third-year medical students.

Creation of Enduring Teaching Materials:

- Procedure Seminar Lecture Series 2003
Internal Medicine Residency Program
LSU Department of Medicine
Baton Rouge, Louisiana

Co-developed a new two-day lecture series that featured hands-on procedure demonstrations and written materials, including pre- and post-procedure checklists, procedure instructions, anatomic diagrams, and sample consent forms for the six most common procedures performed by internal-medicine (IM) residents (endotracheal intubation, thoracentesis, paracentesis, lumbar puncture, central venous catheter insertion, bone-marrow biopsy).

- Workshop Materials 2014
Leadership Academy “Leadership in Action” Workshop
American College of Physicians

Assisted ACP leadership with the development of workshop materials, including participant case studies and a presenter guide for a two-hour workshop module as part of a national leadership-development program.

Formal Course Responsibilities:

- Coordinator: Morbidity and Mortality Conferences 2004-2009
Internal Medicine Residency Program
LSU Department of Medicine
Baton Rouge, Louisiana

Approximately 3-4 times a year, coordinated clinical cases with various speakers. Conferences were one hour each and required 5-10 hours of direct preparation time with each resident.

- Lecturer: Internal Medicine Residency Core Curriculum 2004-present
Internal Medicine Residency Program
LSU Department of Medicine
Baton Rouge, Louisiana

Delivered lectures (one hour each) to Internal Medicine (IM) interns and residents; OB/GYN, Psychiatry, and Emergency Medicine residents rotating on IM services; and third- and fourth-year students rotating at the LSU School of Medicine Baton Rouge campus and Earl K. Long Medical Center from the LSU School of Medicine in New Orleans. Topics included the following:

- Perioperative Management of the Medical Patient 2004-present
- Preoperative Evaluation 2004-present
- Congestive Heart Failure: Pathophysiology and Diagnostic Workup 2005-present
- Congestive Heart Failure Treatment 2005-present
- Approach to Hospital-Acquired Acute Renal Failure 2006-2013
- Genetics in Primary Care Medicine 2008
- Acute Decompensated Heart Failure: 2008-present
Pathophysiology and Treatment Principles
- The Art of Consultation 2011-2014
- Is More Always Better in Medicine: The Challenge to Do Less 2015
- Office ENT for Primary Care 2017
- Evaluation of Shortness of Breath 2019
- Leader/Facilitator: Problem-Based Learning Session

Interactive small-group session with IM interns.

- Medical “Chopped” 2019-2022

Interactive, team-based learning activity. Five unique sessions given to date.

- Other IM Residency Program Conferences
 - ❖ Primary Care MKSAP Review 2010
Comprehensive 3-hour review session of the primary-care section of board-review material. Given jointly with Dr. Dean Lauret to IM residents and rotating third- and fourth-year students.
 - ❖ Primary Care MKSAP Review, Part 1 2012
Comprehensive review of selected sections of the primary-care board-review series. Presented to IM residents and rotating third- and fourth-year students.
 - ❖ General Medicine/Hospital Medicine MKSAP/Board Review 2015, 2016
Hour-long conference of selected board-review questions presented to IM residents and rotating third- and fourth-year students.
 - ❖ General Medicine MKSAP Board Review 2019
Three-hour conference of selected board-review questions presented to IM residents. Presented jointly with Drs. Dean Lauret and Miranda Mitchell.
- Lecturer: Professor's Rounds Lecture Series 2005-2007
LSU School of Medicine/Earl K. Long Medical Center
Baton Rouge, Louisiana
Delivered lectures (one hour each) to third-year students rotating at Earl K. Long Medical Center from the LSU School of Medicine in New Orleans. Topics included the following:
 - Evaluation of Fever and Hyperthermia 2005-2006
 - Pitfalls in Common Laboratory Markers 2005-2006
 - Drug Therapy in Diabetes Mellitus 2006-2007
- Lecturer: Senior Medical Student Lecture Series 2007
LSU School of Medicine/Earl K. Long Medical Center
Baton Rouge, Louisiana

Delivered lecture to fourth-year students rotating at Earl K. Long Medical Center from the LSU School of Medicine in New Orleans. Lecture was entitled Evaluation of Acute Renal Failure and was a one-hour lecture that I delivered three times.

- Lecturer: Medicine Clerkship Lecture Series
LSU School of Medicine/Earl K. Long Medical Center
Baton Rouge, Louisiana 2007-present

Delivered lectures to third-year students rotating at Earl K. Long Medical Center from the LSU School of Medicine in New Orleans. Lectures were one hour each and given once per 12-week block. Topics included the following:

- Common Malignancies 2007-2009
- Diseases of the Thyroid 2007-2010
- Heart Failure Overview 2007-present
- Hyperlipidemia Overview 2009-2014

- Lecturer: LSU/Earl K. Long Graduate Medical Education Conferences
LSU School of Medicine/Earl K. Long Medical Center
Baton Rouge, Louisiana 2010

Along with Dr. Catherine O'Neal, gave a lecture entitled Residents as Teachers, Part 1: Effective Large-Group Teaching to all GME program residents (Internal Medicine, Emergency Medicine, OB-GYN). This hour-long seminar focused on tips for the successful planning and delivery of large-group lectures.

- Faculty: Clinical Skills Integration 101 (CSI 101)
Facilitator: Decatur House
LSU School of Medicine
New Orleans, Louisiana 2019-2020

CSI 101 is a small-group clinical-skills course for first-year medical students. As part of my participation in the Houses Program, I facilitated small-group course sessions 2-4 times per semester. Between prep time, content delivery, and follow-up, total time was approximately 50 hours/year.

Departmental/Interdisciplinary Teaching Conferences:

- Leader/Facilitator: Morning Report
Internal Medicine Residency Program
LSU Department of Medicine 2004-present

Baton Rouge, Louisiana

Active participation in leading/facilitating daily hour-long conference at which patient cases covering a broad range of internal-medicine topics are presented and discussed. Learners present include approximately 30-40 internal-medicine residents as well as 15-40 rotating third- and fourth-year medical students.

- Participant: Resident Core Curriculum Lectures
Internal Medicine Residency Program
LSU Department of Medicine
Baton Rouge, Louisiana 2004-present

Active participation in discussions at resident noon conferences, including Journal Clubs and Morbidity/Mortality reviews, as well as resident-presented conferences.

Bedside Teaching:

- Inpatient Ward Teams 2003-present
Earl K. Long Medical Center/OLOL
Baton Rouge, Louisiana

Staff ward teams 4-5 months per year, which consists of daily teaching rounds as well as direct patient-care encounters with rotating residents, interns, and senior and junior medical students. As of 2021-22 AY, 13 weeks of service.

- General Medicine Clinics 2003-present
Earl K. Long Medical Center/OLOL/VA Outpatient Clinic
Baton Rouge, Louisiana

Staff 3-4 half-day clinics in general medicine per week, which consists of patient encounters as well as one-on-one teaching with assigned residents, interns, and junior and senior medical students.

- General Medicine Preoperative Clinic 2003-present
Earl K. Long Medical Center/OLOL
Baton Rouge, Louisiana

Staff this weekly clinic two months per year, which consists of patient encounters for patients with planned surgical procedures and concomitant active medical illnesses as well as one-on-one teaching with rotating residents, interns, and junior and senior medical students. The clinic was originally based at EKL but is now incorporated into the subset of general-medicine templates at OLOL.

Informal Teaching Rounds/Didactics:

- Department of Medicine
University Hospital and Clinics (formerly University Medical Center)
Lafayette, Louisiana

2014-2018

Participated in bimonthly informal teaching rounds with third-year medical students in Lafayette. Covered various topics in internal medicine and led daily Morning Report discussions. Hours varied from year to year; approximately 85 hours/year from 2014-2016, approximately 60-70 hours/year from 2016-2018.

RESEARCH AND SCHOLARSHIP

Grants and Contracts:

Funded, IRB-approved

1. **Title:** Reducing Readmissions for Patients Discharged Among the CHF Patient Population (IRB #7632)
Sponsor: LSU HCSD Tele-health Projects
Role: Site Principle Investigator, Earl K. Long Medical Center
Percentage of effort: No set percentage of effort was funded by this study. It was done on my time under the general salary line of my faculty position.
Funding amount: Unknown
Dates: 2011-2013

Multi-site study testing post-discharge telemonitoring system use for reducing readmission rates for heart failure.

2. **Title:** MyPlate Education Video Intervention Pilot (IRB #9957)
Sponsor: LSUHSC (SOM funds, matching DOM funds)
Role: Principle Investigator
Percentage of effort: No set percentage of effort was funded by this study. It was done on my time under the general salary line of my faculty position.
Funding amount: \$5,000
Dates: 2017-2020

Educational-video development and testing for underserved population in primary-care clinics as a way to improve diet and overcome health disparities.

Non-funded, IRB-approved

1. **Title:** Evaluation of the Cost Effectiveness of Incorporating B-Type Natriuretic Peptide Testing for Purposes of Screening for Congestive Heart Failure among Diabetes Patients (IRB #5850)

Role: Co-Principle Investigator (Earl K. Long site)
Percentage of effort: No set percentage of effort was funded by this study. It was done on my time under the general salary line of my faculty position.
Dates: 2004-2005

Site study ended, data incorporated into disease-management state project.

2. Title: Earl K. Long Medical Center Heart Failure Database (IRB #5968)
Role: Principle Investigator
Percentage of effort: No set percentage of effort was funded by this study. It was done on my time under the general salary line of my faculty position.
Dates: 2004-2007

Clinical information database project closed due to incorporation into state disease-management database.

3. Title: Inpatient Heart Failure Admissions Study (IRB #7057)
Role: Principle Investigator
Percentage of effort: No set percentage of effort was funded by this study. It was done on my time under the general salary line of my faculty position.
Dates: 2008-2013

Retrospective study of resource utilization by patients admitted for acute compensated heart failure, with attempt to identify factors predictive of repeat need for hospitalization.

4. Title: A Safety and Efficacy Study of Blood Pressure Control in Acute Heart Failure – A Pilot Study (PRONTO) (IRB #7091)
Role: Sub-Investigator
Percentage of effort: No set percentage of effort was funded by this study. It was done on my time under the general salary line of my faculty position.
Dates: 2009-2011

Active clinical trial of new indication of medication for patients with acute decompensated heart failure presenting to the emergency department.

5. Title: A Survey of Patient Attitudes and Beliefs Regarding Preventative Medicine in a Resource-Limited Population (IRB #7669)
Role: Principle Investigator
Percentage of effort: No set percentage of effort was funded by this study. It was done on my time under the general salary line of my faculty position.
Dates: 2011-2012

Resident-driven project to study patient perceptions and their impact on individual behavior toward preventative care goals and compliance with those goals.

6. Title: Phones in Medicine: Perceptions and Practice (IRB #7966)
Role: Co-Investigator
Percentage of effort: No set percentage of effort was funded by this study. It was done on my time under the general salary line of my faculty position.
Dates: 2012-2015

Survey of perceptions and behaviors toward the use of smartphones in the daily practice of medicine at multiple levels: clinical student, resident, and faculty.

7. Title: Resident Physicians and Health Disparities: An Educational Intervention (OLOL IRB #1601)
Role: Secondary Investigator (Primary: Laurinda Calongne, Ed.D.)
Percentage of effort: No set percentage of effort was funded by this study. It was done on my time under the general salary line of my faculty position.
Dates: 2016-2017

Outpatient-clinic prompt system along with didactic teaching regarding healthcare disparities in the local community aimed at improving resident awareness and incorporation of this knowledge into the care of resident-clinic patients.

8. Title: Improving Quality Healthcare – Examining Patient Adherence and Well-Being in a Clinical Setting (LSUHSC IRB #9394, OLOL IRB #1606)
Role: Principle Investigator
Percentage of effort: No set percentage of effort was funded by this study. It was done on my time under the general salary line of my faculty position.
Dates: 2016-2018

Survey of LSU Health Clinic patients to determine overall knowledge of health and well-being, as well as factors that may predispose to non-adherence to medical therapy.

9. Title: Inpatient Heart Failure Admission Study (LSUHSC IRB #9348, OLOL IRB #1619)
Role: Principle Investigator
Percentage of effort: No set percentage of effort was funded by this study. It was done on my time under the general salary line of my faculty position.
Dates: 2016-2020

Retrospective review of the inpatient acute-heart-failure population to assess factors that may predispose to readmission/high utilization of inpatient care and mortality as well as to assess quality-of-care gaps in order to best direct resources aimed at improving care.

10. Title: An Understudied Population: Hypertensive Emergency in Patients with LV Systolic Dysfunction (IRB #19-039)
Role: Principle Investigator
Percentage of effort: No set percentage of effort was funded by this study. It was done on my time under the general salary line of my faculty position.

Dates: 2019-present

Retrospective review of the inpatient hypertensive-emergency population to assess outcomes based on pharmacologic agents used in the presence or absence of heart failure.
